Education Summary Is Written for and Read by Important People in All Branches of Educational Activity

HERE ARE WHAT A FEW EDUCATION SUMMARY SUBSCRIBERS HAVE TO SAY ABOUT THIS VITAL EDUCATION NEWS SERVICE

"*We recommend* Education Summary *to every school man. This publication concisely covers the nation—educationally.*"—Editor, *"Super News," a bulletin for the District Superintendents of Pennsylvania.*

"*I like* Education Summary *very much. There are so many things in education one should keep up with, that to have them presented in the summary form is the only way the ground can be covered.*"—W. W. Grant, *Pres., Bd. of Ed., Denver.*

"*I not only have found* Education Summary *a very beneficial means of keeping informed about most important state and national educational topics, but in addition, it furnishes many significant issues which challenge the interest of classes in the College of Education. It tends to vitalize various class discussions since the information furnished in* Education Summary *treats current educational practices which are presented 'here and now,' relating to much of the subject matter of given courses in education.*"—A. R. Morrill, *Assoc. Prof. of Sch. Admin., Brigham Young U., Provo.*

"Education Summary *is more than a summary. In addition to keeping the busy school executive informed about significant events, it provides well-selected bibliographies covering matters that may be of special interest and concern to the reader.*"—Paul J. Misner, *Supt., Glencoe, Ill.*

"*We like* Education Summary *because it calls attention to items of educational interest which might otherwise escape attention or be delayed beyond time to have functional value.*"—R. R. Palm, *Dir. of Sec. Ed., Los Angeles County Schools.*

"*All the faculty members of the Woodward School for Girls have found the reading of* Education Summary *helpful and stimulating. The concise digests of reports, the condensed summaries of important national school news, and lists of publications are valuable for all in the field of education.*"—Katherine Bacon, *Prin. of the Woodward School for Girls, Quincy, Mass.*

"*We have found* Education Summary *to be just what the title implies, a summary of important activities taking place in education over the country. It gives the busy administrator or supervisor, whose time for general reading is limited, a quick over-all view of trends and happenings in education. Thus, it serves not only as a source of general information in education, but as a guide to more selective reading which the person may wish to do.*"—Charles C. Mason, *Supt., Tulsa, Okla.*

"*I am interested in wide distribution of* Education Summary."—Wm. H. Burton, *Graduate School of Education, Harvard U.*

"*We like* Education Summary *very much.*"—Sister Bernadette Marie, *S.N.D., Julienne High School, Dayton.*

"*We have found* Education Summary *most useful, and I hope you will have every success in increasing the number of subscribers so that you will be able to carry on the good work you are doing.*"—John M. Kemper, *Headmaster, Phillips Academy, Andover, Mass.*

"*Congratulations upon the excellency of educational material so concisely and aptly presented in* Education Summary. *It embraces information on questions immediately before us. Apparently you predict just what type of questions confront us, and furthermore, stimulate educational thought in areas we should be considering.*"—R. L. Williams, *Supt., Beaumont, Tex.*

"*I have been receiving this excellent periodical from the beginning and find it of inestimable value in my work.*"—R. A. Sibbing, *Inspector of Schools, Society of Mary, Province of Cincinnati.*

"*The accuracy and timeliness of* Education Summary *impresses me very much. In this read-and-run world, I can do both—with an assist from your publication.*"—Russell V. Burkhard, *Assoc. Exec. Secy., New England School Development Council.*
